PROFESSIONAL SUMMARY

Results-driven BI and Analytics professional with **15+ years of experience** across banking, finance, and HR analytics, specialising in Power BI, Tableau, data modelling, and enterprise reporting. Experienced in **team leadership, stakeholder management, and end-to-end project delivery**, with expertise in Jira and Agile/Scrum methodologies. **Microsoft Certified: Fabric Analytics Engineer Associate (DP-600)**, with a focus on modern BI, enterprise analytics, and data-driven decision-making.

CORE COMPETENCIES

Analytics & Insights: Microsoft Fabric | Power BI | Tableau | Semantic Model development | KPI Frameworks | Executive Dashboards | Regulatory Reporting

Data Platform & Engineering: Data-as-a-Product | Data Governance | Data Lineage | Data Modelling | SQL | Python | Teradata | Oracle | Advanced Excel | Row-Level Security (RLS)

Workforce Analytics: HR & Workforce Reporting | Learning & Development Analytics | TA & TAT Reporting | Pipeline Health Tracking

Leadership & Delivery: Team Leadership | Stakeholder Management |OKRs & Backlog Prioritisation | Scrum/Agile| Jira | Confluence | Sprint Planning | Process Improvement

PROFESSIONAL EXPERIENCE

Technical Specialist, iLink Digital Inc., Bangalore, India — May 2026 – Present

Domain: Data & Analytics

- Drive Tableau-to-Power BI dashboard migration, recreating reports and business logic while ensuring accuracy, consistency, and alignment with business requirements.
- Coordinate team activities across an 8-member team, prioritise tasks based on project timelines and business needs, and track delivery progress to support timely completion of project milestones.
- Coordinate with business stakeholders and functional consultants to gather requirements, prioritise deliverables, resolve issues, and address UAT feedback.
- Develop Power BI dashboards using SQL, SAP HANA, Oracle, and SharePoint data sources, applying Power Query (M) for data transformation, DAX for calculations, and data modelling to deliver reliable reporting solutions.
- Leverage company-provided Generative AI tools for technical research, troubleshooting, and exploring solutions to improve development efficiency and problem-solving.
- Apply and expand expertise in Microsoft Fabric, including data ingestion, transformation, Lakehouse, semantic models, and Apache Spark, through hands-on learning and DP-700 preparation.

Senior Insight Analyst, Commonwealth Bank of Australia, Sydney, Australia — Jul 2024 – Mar 2026

Domain: Group Practice, Self-Service Analytics

- Led a team of 5 analysts, prioritising workloads, tracking delivery progress, and facilitating daily Scrum meetings, sprint planning, and retrospectives.
- Drove self-service analytics adoption across multiple practice groups through scalable Power BI and Tableau dashboards and reporting solutions.
- Conducted stakeholder workshops to gather business requirements, define KPI frameworks, identify reporting gaps, and deliver tailored analytics solutions.
- Developed interactive dashboards and KPI-driven reports using SharePoint, APIs, Excel, and SQL-based data sources, streamlining reporting processes.
- Managed Power BI Service workspaces, Row-Level Security (RLS), access controls, and reporting standards to ensure secure and reliable analytics.
- Mentored team members on Power BI best practices, documented analytics workflows in Confluence, and delivered post-handover training to improve user adoption.

Senior Insight Analyst, Commonwealth Bank of Australia, Bangalore, India Sep 2022 – Jun 2024

Domain: Learning & Development, Human Resource

- Designed and implemented enterprise Power BI and Tableau reporting solutions for HR, Talent Analytics & Learning Analytics, delivering interactive dashboards with Row-Level Security (RLS), KPI tracking, and automated reporting capabilities.
- Analysed HR, TA, and L&D data to identify trends, performance gaps, learner behaviour patterns, and workforce insights for leadership.
- Applied data wrangling and data mining techniques across multi-source datasets to surface learner performance trends, dropout patterns, and training ROI; presented findings in leadership meetings.
- Built automated reporting workflows using Power BI, Tableau extracts, Excel, and SharePoint data sources, significantly improving reporting accuracy and turnaround time.
- Presented analytical findings and actionable insights to leadership stakeholders, supporting strategic planning and operational improvement initiatives.

Assistant Manager, Genpact India Private Limited, Noida, India Jan 2020 – Sep 2022

Domain: Rewards & Compensation, Analytics

- Developed Power BI and Tableau dashboards and automated MIS reports using SAP HANA, SQL, Power Query, and advanced Excel to support business and operational reporting.
- Calculated, validated, and reconciled approximately $23M in monthly commission payouts, investigating discrepancies and preparing variance reports against performance and quota criteria.
- Analysed representative productivity, regional performance, and operational KPIs to deliver actionable insights for leadership decision-making.
- Collaborated with cross-functional stakeholders, documented SOPs, and trained analysts on reporting workflows, data validation, and reporting standards.

Sr. Financial Analyst, Bhilwara Infotechnology Limited, Noida, India Dec 2013 – Jan 2020

Domain: MIS & Reporting, Finance & Accounts

- Managed $250M+ in monthly billing and resolved $5M in unbilled revenue through reconciliation, investigation, and ledger analysis.
- Developed Power BI dashboards and MIS reports using SAP FICO extracts, covering revenue, P&L, expenses, and ageing analysis.
- Supported financial audits and reporting governance by maintaining accurate invoices, and purchase order records, ensuring data accuracy and compliance.

Financial Analyst | WA Corp (Hyundai India Ltd), Noida, India Nov 2012 – Dec 2013

Domain: Payments, Finance & Accounts

- Performed daily cash and bank reconciliations; built Excel-based MIS dashboards and monthly payables reports.
- Coordinated with stakeholders to resolve invoice and payment queries within SLA turnaround times.
